

## LIFE INTERNATIONAL BIBLE COLLEGE AND MINISTRY SCHOOL

### LIBCMS to Pastors

Why should I as a Pastor inform my congregation of a Bible school held at another church's location?

1. If you do not have in place at this time an accredited Bible College to train those called into ministry it would be a blessing for your potential students to have this information.
2. The curriculum has been proven, tested and studied for 17 years.
3. You will not find more affordable education with academic excellence in your area.
4. There is a ministry module that directs students from your church to do their practicum under the ministry of their local congregation which will be 18 hrs. toward their degree.
5. They can remain in your church and at their job while obtaining their degree.
6. It is time efficient because a student attends only one night a week for nine months per year therefore enabling them to receive an associates degree in two years, and a bachelors degree in four years.
7. Promotes unity in the Body of Christ by crossing barriers of denomination, race and culture.
